Hi Councilor Kelley,

Thank you for getting back to me. I have been reading about an upcoming resolution regarding potential divestment from HP. I know that often what is out there is not the most reliable, so I figured I would ask someone who might have some more information. In particular, I know that the actual resolution is not yet public, which seems rather shady, and makes it difficult to judge it on its own merit. I have heard that it is not an anti-Israel measure, but it sounds to me that a number of the reasons given are exactly that in nature. Any information you are willing to share would be much appreciated.

Thanks,
Noah
